

Dakota High School Campus

Student Pick-up and Drop Off Map

In order to maintain building access throughout the school day for emergency vehicles, we will be implementing the above plan for student pick-up and drop-off. The East Drive is designated as a fire lane. Parents parking along the East Drive to pick-up their students at the end of the day has produced congestion that would make it impossible for emergency vehicles to access this side of the campus. Please note, all traffic on the East side will be routed to the staff and visitor parking lot (blue arrows) **No cars will be permitted to stop at the curb on the East Drive or in front of the 9th Grade Center.** Parents picking up students who have an early dismissal pass for the 9th Grade Center between 1:30 and 2:11 should use the North entrance (yellow arrows) Parents who desire a curb pick-up from the main building are encouraged to use the West loop (orange arrows) If you have questions about this traffic plan, please contact Mr. Heethuis or Mr. Briningstool at 723- 2700 for the main building and Mr. Sibley at 723-3300 for 9th Grade
